

FOR IMMEDIATE RELEASE

Royal Oaks Life Care Community presented with "Quality First Best Practices" Award

Nashville, TN. May 21, 2007 – Momentum Healthware is pleased to announce that Royal Oaks Life Care Community has been awarded the "Quality First Best Practices Award" by the Arizona Association of Homes and Housing for the Aging (AAHSA). The award honors and recognizes organizations that demonstrate their commitment to create quality of care and quality of life for older adults.

"It is a great honor to receive this recognition", says Dina Capek, RN, MSN, LNHA, Director of Health Services. "Even more valuable to us is the recognition that our residents receive high quality of care here at Royal Oaks. We continually seek ways to improve the life of our residents and this illustrates our success. The staff across the continuum of care all agree that the accessibility of resident information and point of care documentation capabilities truly allows for better communication and better decision-making."

"Royal Oaks is a portrait of what great technology and best practices can do for an organization," says Dan Malmstrom, CEO of Momentum Healthware. "The inherent accessibility of information provided by Momentum Healthware's products has allowed Royal Oaks to deliver outstanding resident care while achieving three straight years of Zero Deficiency Surveys."

Royal Oaks, a Continuing care Retirement Community is located on a 39-acre campus in Sun City, Arizona. They are committed to ensuring that all programs and services support their belief that retirement years can be the most fulfilling years of a resident's life. Royal Oaks chose Momentum Healthware for its electronic health record (EHR), MDS, and Microsoft Great Plains financial applications in 2003 as a way to streamline redundancy in their assisted living, independent living and skilled nursing units.

Today, Royal Oaks operates in a virtually paperless care environment, receives positive feedback from various review organizations, and has a staff who cannot comprehend

caring for residents any other way. "Momentum's software allows us to quickly access all aspects of a resident's record. It has streamlined the charting system, allowing for more time with residents. Momentum's products are an essential component to our delivery of quality resident care."

About Momentum Healthware Inc.

Founded in 1995, Momentum Healthware specializes in the development, delivery, integration and support of seamless information technology software systems for the healthcare industry. Its solutions serve the information systems requirements of small to medium sized hospitals, the continuum of long-term care (LTC) facilities, and the home care sector in Canada, and the continuum of LTC organizations in the U.S. Momentum's industry compliant applications include: Electronic Health Record, Assessments, Registration, Clinical Systems, Clinical Portals, Dietary, Pharmacy, Radiology, Billing, Financials, Human Resources, Real-Time Location, and Decision Support Systems.
